

Education and Training Requirements for Clinical Researchers at Osaka University Hospital (For non-Japanese researchers who have difficulty in taking courses in Japanese)

■ Basic Concept

- This course is mandatory for Principal Investigators and Investigators at Osaka University Graduate School of Medicine and Osaka University Hospital who conduct Clinical Research (including compliance with the Clinical Research Act), Clinical Trial, Regenerative Medicine, Epidemiological Research, Human Life Science and Medical Research Involving Human Subjects, etc.
- The first year of engagement in research shall take the "Foundational Education and Training" , and the "Continuing Education and Training" shall be taken after the second year .

■ Educational Requirement

Foundational Education and Training (The First Year)	Take the " Basic course for clinical research _ English" in CROCO
Continuing Education and Training (After the Second Year)	The requirement can be fulfilled by taking e-learning on clinical research in Japan and abroad (including those provided by external sources).

■ CROCO (Clinical Research Online Professional Certification Program at Osaka University)

CROCO is an educational e-learning website on clinical research provided by Osaka University Hospital. For user registration, please follow the instructions on the login page.

URL: <https://bvits.dmi.med.osaka-u.ac.jp/croco/login.aspx>

1. Foundational Education and Training

Complete the course "Basic course for clinical research_English" in CROCO before initiating the research.

<How to take a course at CROCO>

- Log-in to CROCO
 - Click "CROCO Courses in English"
 - 「Course for Foreign Researchers Living in Japan」
 - 「Basic course for clinical research_English」
- There is a "pre-test" and a "post-test" for each lecture, and the course is completed when the post-test is passed. If you pass the pre-test, participation in that lecture will be waived.
-  will be displayed when the course is completed and a certificate of completion will be issued.

Course for Foreign Researchers Living in Japan

過去の分の修了証は、受講記録管理の [コース進捗](#) で取得できます。

Previous certificates can be obtained from the [Course Progress](#) page of the Study Record Management.

AY XXXX	コース名 Course Name	合格件数/全件 Units passed/all units	修了証発行 Course Certificate
	Basic course for clinical research_English	16 / 16	START  

2. Continuing Education and Training
